

What I love to do in Wynyard

By Cyndia Hilliger

One of my favourite things to do is go browsing along the main street through the second hand shops and the opportunity shops in town. It always amazes me the treasures that can be found.

Once I was very tempted by a stuffed deer head trophy, but thought better of it as I wasn't really sure where exactly it would go!

Along the main street there are plenty of bargain shops, cafes, and really cool home interior shops. Definitely drop into Chilles—they have some very unusual but beautiful clothes as well as home wares.

After a stroll along the main street, a coffee at Ladybug's at the top of town is a must. She has the best homemade cakes and always there with a friendly smile. Right next door is a lovely home décor boutique worth popping into as well.

From here, take a leisurely walk along the main street back to the calming riverside vistas at Gutteridge gardens. The motel is back along the river bank, so not far to wander home with your treasures. Happy Hunting!

Main Street of Wynyard is Goldie Street. Just follow along the street to find the following places:
